Announcement of Small Grant Recipients and Appreciation to Reviewers

The *National Organization of Nurses and Midwives of Malawi (NONM)* in Partnership with The *Norwegian Nurses Organization (NNO)* is pleased to announce the selection of recipients for the small grants program following a rigorous and transparent review process. This initiative aims to support innovative and impactful projects that contribute to the vision and mission of NONM.

After careful evaluation among 46 applications received, 32 were shortlisted and double blind reviewed. After that 11 outstanding applicants have been selected to receive funding to implement their initiatives. These recipients were chosen based on their projects' potential for impact, sustainability, and alignment with the objectives of the program. We extend our heartfelt congratulations to all successful applicants and look forward to witnessing the positive change their projects will bring to their communities.

We also take this opportunity to express our deep gratitude to the panel of reviewers who dedicated their time and expertise to this process. Their commitment, diligence, and thorough assessment ensured that the most deserving projects were selected. Their invaluable contributions have played a crucial role in strengthening this initiative and fostering impactful solutions.

As an organization committed to empowering nurses, midwives, and community initiatives, NONM remains dedicated to supporting grassroots efforts that drive positive change. We encourage all applicants, including those who were not selected this time, to continue their efforts and seek future opportunities within our programs.
